DETAILED ACTION

Response to Amendment

The reply filed on July 3, 2003 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

Applicant's response fails to comply with 37 CFR 1.111(b) which requires that in order to be entitled to reconsideration or further examination, applicant must distinctly and specifically point out the supposed errors in the examiner's action and must reply to every ground of objection and rejection in the prior Office action.

Applicant's amendment to the specification is essentially a complete rewriting thereof and is therefore equivalent to a substitute specification.

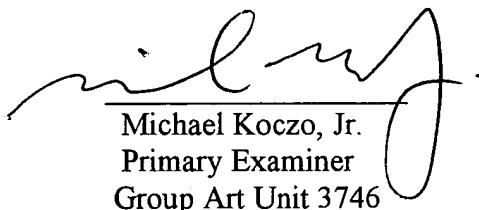

Substitute specifications will be accepted if applicant submits therewith a marked-up copy which shows the portions of the original specification which are being added and deleted. Additions should be indicated by underlining and deletions should be indicated between brackets. Applicant must also furnish a statement that the substitute specification includes no new matter, and that the substitute specification includes the same changes as are indicated in the marked-up copy of the original specification showing additions and deletions. Such statement must be a verified statement if made by a person not registered to practice before the Office (37 CFR 1.125, MPEP 608.01(q)).

The claims are improperly amended. See attachment for the proper procedure for amending claims.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry relating to the status of this application or proceeding should be directed to the Customer Service Office whose telephone number is 703-306-5648.

Any inquiry relating to patent applications in general should be directed to the Patent Assistance Center at 1-800-786-9199.

REVISED AMENDMENT PRACTICE HIGHLIGHTS

Technical Support Staff

Requirements of the revised amendment practice of the final rule for all amendments filed on or after July 30, 2003 :

1. Each amendment section must begin on a separate sheet
2. A separate "clean" version of a currently amended paragraph or claim is **NO LONGER REQUIRED** (except for a substitute specification – see No. 5 below)
3. If the amendment adds, changes, or deletes any claim, a listing of all claims that are, or were, in the application, must be provided as follows:
 - The claims must be listed in ascending numerical order
 - The text of all pending claims including withdrawn claims must be presented; no text for "canceled" or "not entered" claims
 - A status identifier must be presented in parentheses after the claim number for each claim; only the following identifiers are permitted: (original), (currently amended), (canceled), (withdrawn), (new), (previously presented), and (not entered)
 - All "currently amended" claims must have markings to show changes; the only markings permitted are underlining for added matter, strikethrough and double brackets [[]] (for five or fewer characters) for deleted matter
 - Grouping of consecutive "canceled" or "not entered" claims permitted (e.g., claims 2-8 (canceled))
4. Upon receipt of a complete listing of all claims, LIEs should cancel all previous versions of claims in the application by drawing a line through the previous versions of claims
5. Amendments to the specification by marked-up replacement paragraphs or sections only - no clean replacement paragraph or section is required; **NO** replacement sheets permitted
 - Note, however, that for substitute specifications, rule 1.125 continues to require both a clean and marked-up copy
6. Drawing changes without markings - clean replacement drawing sheets only – annotated sheet(s) showing changes may be submitted
 - Explanation separately provided
